

QUANTUM ABOUT

The German physicist Max Karl Ernst Ludwig Planck (1858-1947) Datas are from Nobelprize website.

Planck's work on the quantum theory and get The Nobel Prize in Physics in 1918.

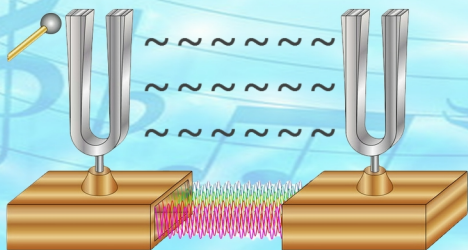

According to Planck-Einstein relation, They refer to a formula integral to quantum mechanics, The energy of a photon is proportional to the frequency as $E=h\nu$

- E: Energy of a photon
- h: Constant of proportionality
- ν: Vibration frequency

Therefore, base on the same constant of proportionality, as higher vibration frequency it is, as a higher energy it gets.

QUANTUM = ENERGY CONDUCTION

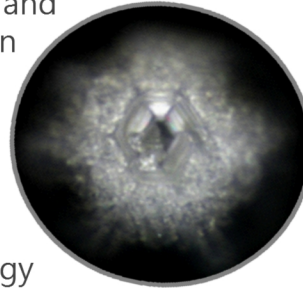

When the energy of the two substances meets, the material with strong vibration rhythm will cause the weaker side to vibrate at the same speed to form a synchronous resonance phenomenon. For example, the unvibrated column will vibrate under the influence of the column vibrating next to it.

LIQUID MAGNETIC FIELD = WATER MIRACLE

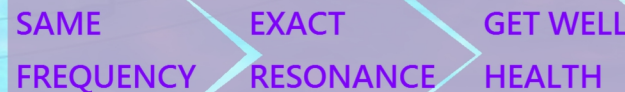

Our RD team use quantum conduction as the core theory of technology to develop a LIQUID MAGNETIC FIELD that can generate good resonance effect benefits with other fluids.

To observe it with high-magnification electron microscope, the water molecules is crystallize and continuous atomization fluttering around the crystal, it confirms its resonance energy. As the resonance energy power is generated by the liquid, and the energy continues to be as natural as the natural magnetic field, thus we named the resonance effect as WATER MIRACLE.

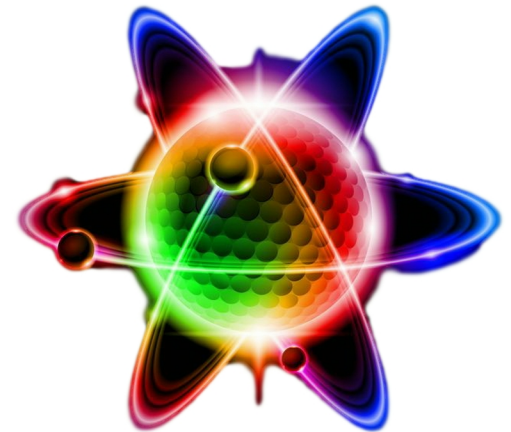

There are 70% water content in human body. All kinds of nutrients are also transported by water (blood). Good water can help human health. Except to absorb good water, also can use LIQUID MAGNETIC FIELD to resonate with organs to help circulation and promote health as well.

Since each organ and acupoint has a different frequency, LIQUID MAGNETIC FIELD is set at different frequencies to meet and suitable for different resonance organ(acupoint) parts to achieve the best health care effect.

QUANTUM ENERGY RESONANCE EFFECT HEALTH CARE PRODUCTS

WATER MIRACLE

100% MADE IN TAIWAN

NANOMETER ENERGY CO., LTD.

No. 27, Ruiyuan St., Bade Dist. Taoyuan City, Taiwan

TEL: (03) 365 9955 FAX: (03) 365 0607

e-mail: info@nano-meter.com.tw

QUANTUM WAVE SHOE INSOLE

By RESONANCE EFFECT principle, The insole stimulates the acupuncture points on the soles of the feet to promote circulation and cell metabolism of the body. Wear the insole can accelerate the exhaust from feet, to relax calf muscles, not easy to edema and fatigue, and the footsteps become lighter; it can gradually reduce the body muscles soreness and fatigue after long-term use, the body muscles are not tight and not tired, to remain the spirit in naturally good.

Function Diagram & Material Construction

Frequency Resonance
Foot acupoint stimulated

Soft Fabric
Antibacterial treatment

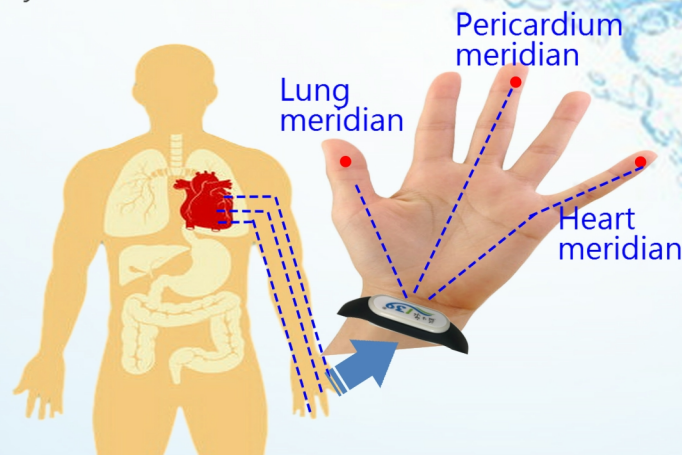

Poly Foam + LIQUID MAGNETIC FIELD
Flexible & comfortable

RESONANCE ENERGY HEART CARE BRACELET

Biological information has its original function. The biological clock is a best example. When it is disturbed by external environment or the disease of the autologous organ, it causes disorder of the message. The organ is not functioning properly, and it will lead to disease over time.

According to the theory of traditional Chinese medicine, the human body has twelve meridians. The motion is constant, the LIQUID MAGNETIC FILED in the bracelet can have resonance with the pulse, and the three meridians are mutually resonance to three coronary arteries in heart to stabilize the heart rhythm.

H68 WATER MIRCALE CLT33 FILTER CARTIRDGE

FILTER MIDEA

* LIQUID MAGNETIC FIELD

To deconstruct the water cluster to a small molecule state. Well taste of drinking, it can also using for soaking fruits and vegetables to reduce its acidity,

* NANO-SILVER GAC

Highly performance of inhibit the growth bacteria, also it is with effective adsorb capacity of chlorine, heavy metals, pesticides and other chemical elements.

SPECIFICATION

- Dimension ---OD50mm L260mm port 1/4"
- Lifespan -----4000L or 1 year
- Flow rate -----2.0L/M
- Max pressure-90 PSI
- Max temp.----38°C
- Application---fina stage of filter system

Water is with activated energy
The water molecules continue to oscillate and then the air goes into the gap of water molecule, therefore the bubbles increase after few minutes.
